25X1

MEMORANDUM FOR:

[redacted]
Chairman, Science and Technology Advisory Panel

FROM:

[redacted]
Chairman

SUBJECT:

STAP Scientific and Technical Intelligence Report

1. I have read with interest the STAP report on Scientific and Technical Intelligence. The conclusions and recommendations rightly focus on the need for a better awareness of the increasing importance of S&T intelligence to broad US national security needs and foreign policy goals. Also the findings of the lack of clearly delineated responsibilities for S&T intelligence, I believe, point out an area for management concern and where action is required.

25X1

2. I understand that Admiral Inman and Mr. Casey are considering your report, and I hope where possible that some of your recommendations may be adopted.
